How to "**Hack**" a Facebook Account

5 Simple Steps

What you will need:

- Desktop / Laptop
- Internet connection
- Target account
- Keylogger

Step 1

Install a keylogger.

Step 2

Hide keylogger.

Step 3

Select target account.

Step 4

Ask the owner of the account to log in to his/her account using your laptop.

Step 5

Use account information to "hack".
